

Assignment: Web Scraping

EDH7916

Benjamin Skinner

Please answer the following questions. Use comments to respond as necessary.

Questions

1. Find the unemployment rate for 25 to 34 year-olds by degree type for the years 2014 through 2016. Make a long data frame and use it to make a figure of trends over time by educational attainment. See Table 501.10 of the NCES Digest of Education Statistics, which can be found here¹).

Submission details

- Save your script (`<lastname>_assignment_scraping.R`) in your `scripts` directory.
- Push changes to your repo (the new script and new folder) to GitHub prior to the next class session.
